Project Title - UnSkool

Problem Statement- Education

Description-

UnSkool is a web platform for users to take various courses, quizzes, post articles and gain points. Thus bringing in Gamification to Education.

Content-

The users would register on the site and they will be prompted to choose a course from various courses. The users can earn points by completing the course, the user can further answer quizzes based on the course and can ask doubts in the discuss section. There would be levels based on points and prizes based on the levels.

Ways to host your project on the localhost-

We would be hosting the project on Localhost with the help of Xampp and PHP MyAdmin

Technology-

Frontend: HTML, CSS, JavaScript

Backend: PHP, MySql
